

BLINDER MOB | BE SEEN LIGHTS

With different technologies for different urban riders, the five square Blinder MOB's characters come in front and rear. They not only have a mix of colours, but a range of weapons to beat the competition. Like 2 (front) or 3 (rear) interchangeable straps –including one to fit aero posts. Their beams range from ultra-focused to ultra-wide so they never get caught out. Plus, check out each one's individual flash pattern. Read on for more of the MOB's unique characteristics.
