

**PRESS RELEASE
KNOG HEAD QUARTERS
THE KNOG PARTY COMBO**

LONG, BENDY, HARD-CORED AND SMOOTH TO TOUCH.

Knog, those guys from Melbourne who brought you the Bouncer lock, Blinder lights and other cycling bits and bobs, bring you the **Party Combo** lock.

Just as mighty as the Party Frank, but without the key.

Still got the seamless 620mm-long cable.

And the braided high-tensile steel wire.

And the fibre core technology that beats away bolt-cutters.

Still overmoulded using industrial grade UV-stabilised silicone to protect your bike, your fingers, and your reputation.

Still only 300g.

Still in 8 fancy pants colours.

But now we've lost the key, and found 10,000 unique lock combinations.

Which begs the question:

What's your Combo?

TECHNICAL SPECIFICATIONS:

- Patented seamless overmould using industrial grade UV stable silicone. Will not mark or scratch your ride.
- 8mm Stainless steel locking shackle. *No leverage points ensures extra security against attacks
- Rotating dial lock barrel, with 10,000 unique combinations. Materials: Zinc Alloy Die Cast.
- Braided steel cable with fibre core (making cable more secure in the event of bolt cutter attack).
- Outer Cable Diameter: 12mm.
- Internal Steel Cable Diameter: 5mm.
- 620mm in length.
- Weighs 300g
- Colour Range: Black, Lime, Turquoise, Rose, Red, Grape, Indigo & White.

See knog.com.au for more information on Knog and the Party Combo.
