LOCK HARD

**PRESS RELEASE**  
**KNOG HEAD QUARTERS**  
**THE KNOG STRONGMAN**  
**U-LOCK**

**GIVES TOUGH LOVE 24/7. HITMAN INDESTRUCTIBLE  
BUT WON'T SCRATCH BIKES. YOUR ULTIMATE HERO.**

The toughest, rock solid Knog U-lock, the high-security and bike scratchproof Strongman.

The Strongman combines hardened steel housing with investment cast stainless steel cover and a 13mm hardened steel shackle, over-moulded with industrial grade, UV resistant silicone. This basically means it won't mark or scratch your bike but could kill a beast.

The Knog Strongman has a torsional strength that can withstand forces of up to 2kNm of combined twist 'n' mass force. As well as being able to resist up to 35 Kn of tensile strength, the lock is frost, dust and corrosion resistant, so if you're a beach-babe or a snow-dude, you're set. It also has a spring-loaded keyhole gate to protect the barrel from unwanted guests.

The Strongman U-lock is both Stitching ART (3 star) and Sold Secure Gold accredited\*, which are the highest security accreditations in the UK and Netherlands for Bicycle Security Systems. (We reckon if it's safe in the UK, it's bloody safe anywhere).

Our Strongman can also do more than lift road-trains and swallow live ammo. The lock has an inbuilt high security disk style lock cylinder with 5000 possible combinations and a double deadlock mechanism. For extra security the lock is supplied with three over-moulded, colour-matched keys. It also comes with a unique key code to allow replacement of lost keys –fully traceable through Knog – if you're someone who distributes keys as a recreational pastime.

The Knog Strongman is the ultimate powerful U-lock and not only does it look rich, but importantly, it'll secure your precious bike.

The Knog Strongman comes in three colours: red, white and black. Expect them to retail around USD\$99

\* Stitching ART (3 star) and Sold Secure Gold accreditation?

Products bearing the Sold Secure Quality and ART (3 star) Mark provide consumers, the insurance industry, the Home Office, and the Police accurate, non biased advice regarding effective security products.

The Strongman U-Lock has been tested in accordance with Sold Secure's Specification for Mechanical Security Systems for Bicycles. This specification provides evaluation in three categories - Gold, Silver and Bronze; referring to the level of security offered by the product.

**PRESS RELEASE**  
**KNOG HEAD QUARTERS**  
**THE KNOG STRONGMAN**  
**U-LOCK**

The Strongman U-Lock has been tested and certified in the Gold category.

This means that it has been subjected to and passed the following tests; Lock Resistance Test, Wedge Attack, Cutting, Static Load Tests, Bolt Cropper, Freezing, Hammer, Punches and Drifts.

The ART (3 star) accreditation was awarded for passing similar security tests for the Netherlands.

**TECHNICAL SPECIFICATIONS:**

- Security rating 90/100: Sold Secure Gold standard & ART 3 star accredited
- 13mm hardened steel shackle
- UV resistant industrial grade silicone that won't scratch your bike
- Weighs 1.1kg
- High security disc style lock barrel with over 5000 unique key variations
- Double deadlock mechanism with spring-loaded keyhole gate
- 3 x ultra-strong high security keys
- 1 x unique key code to replace lost keys
- Dust, corrosion and frost resistant
- Tensile Strength over 35 kN
- Torsional Strength over 2 kNm
- Colour matched mounting bracket for your bike
