## ENGLISH

Length: 1.2m / 2.2m  
Weight: 1.2m: (265g) / 2.2m (450g)  
Cable Diameter: 10mm Steel Cable diameter: 6mm

- Braided loose bound steel cable with fibre core (making cable more secure in the event of bolt cutter attack).
- 1.2/2.2 metre cable, crimped and welded to a reinforced steel ring
- Fully overmoulded using medical grade, UV stable silicone.
- Designed and proven to withstand more than 300kg of tensile load. • Non Mark / Scratch surface

## SPANISH

Length: 1.2m / 2.2m  
Weight: 1.2m: (265g) / 2.2m (450g)  
Cable Diameter: 10mm Steel Cable diameter: 6mm

- Braided loose bound steel cable with fibre core (making cable more secure in the event of bolt cutter attack).
- 1.2/2.2 metre cable, crimped and welded to a reinforced steel ring
- Fully overmoulded using medical grade, UV stable silicone.
- Designed and proven to withstand more than 300kg of tensile load. • Non Mark / Scratch surface

## FRENCH

Length: 1.2m / 2.2m  
Weight: 1.2m: (265g) / 2.2m (450g)  
Cable Diameter: 10mm Steel Cable diameter: 6mm

- Braided loose bound steel cable with fibre core (making cable more secure in the event of bolt cutter attack).
- 1.2/2.2 metre cable, crimped and welded to a reinforced steel ring
- Fully overmoulded using medical grade, UV stable silicone.
- Designed and proven to withstand more than 300kg of tensile load. • Non Mark / Scratch surface

## GERMAN

Length: 1.2m / 2.2m  
Weight: 1.2m: (265g) / 2.2m (450g)  
Cable Diameter: 10mm Steel Cable diameter: 6mm

- Braided loose bound steel cable with fibre core (making cable more secure in the event of bolt cutter attack).
- 1.2/2.2 metre cable, crimped and welded to a reinforced steel ring
- Fully overmoulded using medical grade, UV stable silicone.
- Designed and proven to withstand more than 300kg of tensile load. • Non Mark / Scratch surface

## JAPANESE

Length: 1.2m / 2.2m  
Weight: 1.2m: (265g) / 2.2m (450g)  
Cable Diameter: 10mm Steel Cable diameter: 6mm

- Braided loose bound steel cable with fibre core (making cable more secure in the event of bolt cutter attack).
- 1.2/2.2 metre cable, crimped and welded to a reinforced steel ring
- Fully overmoulded using medical grade, UV stable silicone.
- Designed and proven to withstand more than 300kg of tensile load. • Non Mark / Scratch surface

## ITALIAN

Length: 1.2m / 2.2m  
Weight: 1.2m: (265g) / 2.2m (450g)  
Cable Diameter: 10mm Steel Cable diameter: 6mm

- Braided loose bound steel cable with fibre core (making cable more secure in the event of bolt cutter attack).
- 1.2/2.2 metre cable, crimped and welded to a reinforced steel ring
