ACTION VIDEO LIGHT

knog.
qudos

As the sun dips over the horizon, night blankets day. And the truth of the feats and features that make every one of us a hero, fades away. Until now.

With **qudos action** butting up to any GoPro® or DSLR we can tell the untold and make the real “unreal”. 1080’s at 22:30, surfing after sunset and riding at midnight. You can even dive to new depths – underwater or on the dance floor.

So come out you dark horses, you night owls, you creatures of the night – the time for hiding in the shadows is over. Show yourself.

GoPro is a registered trademark of GoPro, Inc.

WORKS WITH

GOPRO®

ONE SIZE FITS ALL

Designed for your GoPro but works with any action camera with GoPro conversion mounts. The kit includes a GoPro mounting bracket and two mount screws. The cold shoe bracket included also provides a versatile two-in-one solution for use with digital SLR cameras and tripods.

MODES TO MATCH YOUR GOPRO

ACTION
WIDE ANGLE BEAM

BEST FOR:
Action-packed footage.
WHY:
More light means less blur.
GOPRO FIELD OF VIEW:
"Medium"

LUMEN: 400

RUNTIME: 0.7 HRS

LUMEN: 225

RUNTIME: 1.2 HRS

TARGET SPOT
NARROW ANGLE BEAM

BEST FOR:
Picking out a subject.
WHY:
More focus means less clutter.
GOPRO FOV:
"Narrow"

LUMEN: 175

RUNTIME: 1.5 HRS

LUMEN: 100

RUNTIME: 2.6 HRS

AMBIENT
ULTRA WIDE BEAM

BEST FOR:
Fill light.
WHY:
Softer light limits blow out.
GOPRO FOV:
"Ultra Wide"

LUMEN: 270

RUNTIME: 1.1 HRS

LUMEN: 70

RUNTIME: 4.3 HRS

GET IT WET

Just like the GoPro, **qudos action** is waterproof to 40m. Built with a marine grade aluminium heat sink and faceplate, polycarbonate lens and sealed rear battery door, it will never leave you hanging out to dry.

WON'T WEIGH YOU DOWN

At a surprisingly light 150g, you won't notice the extra weight when mounted on your camera. Its sleek compact design and slimline padded case make it effortlessly portable.

REPLACEABLE BATTERY

The pack includes a long lasting 1000 mAh lithium-polymer rechargeable battery and a handy micro USB extension cable for charging on the fly.

VIDEO COMPARISON

GoPro

GoPro + **qudos action**

GoPro has low light functionality when the camera is still, but when the camera is moving, you need a video light. The **qudos** colour temperature of 5000k strikes the perfect balance for more clarity and colour, and less compromise.

IN THE BOX

qudos action video light, Li-Po USB rechargeable battery, USB recharge cable, Action camera mount, Mount hardware, Cold shoe + tripod adapter

ACTION

@_majana1crew

GET SOME.

Fumbling around in the dark can be fun, but we reckon it's always better with the light on.

You might want to stick your GoPro + **qudos** to the underside of your dirt bike. You might be bonkers enough to go Great White spotting on the reef. Or, more likely, you're one of the millions of action video makers that do something totally different, every time.

Well, now you can do it after hours too.

PROFESSIONAL

@neco_outdoors

WORK HARD PLAY HARD.

Let's be honest, the game has changed. Whether we're talking about the film industry or photography, whether you're a freelancer or an agency creative, you don't have the big budgets and big teams like Madmen.

So without the Gaffer or a Best Boy, you'd better get the gear to show you have some sort of idea. And just because it's affordable, doesn't mean you can't expense it to 'the man'!

HOME VIDEO

UNFORGETTABLE.

They can distort, memories. And so can night-time footage. Remember your kid blowing out the 5 candles on her cake last year? You're going to have to, because the video is too grainy.

From getting your fondest family moments at home, to getting your mate's drunken fireside performance at camp singalong, **qudos** captures it all.

Now 'home video' doesn't have to look amateur. Or be at home. Remember that, if nothing else.
